Why BeTIlan ?

1 technical office

SERVICIO DE INGENIERÍA. An extensive list of projects guarantees our experience. We can provide drawing documentation, and accept changes, alterations or replacement of any components according to the demands of our customers or we can even create part diagrams in the absence of detail drawings.

2 service

We know the ins and outs of steel making because we have been working side by side as a trusted provider to major steel manufacturers since 1992. We provide an urgent and quality service exclusively for the steel sector. Water-cooled equipment, combustion chambers, fume ducts, panels, furnace roofs both in steel and copper, etc...

3 quality

Our integrated management system is internationally recognised as attested by our certifications in quality management, environment, occupational safety and socially responsible ethics. **ISO 9001, OHSAS 18001, ISO 14001 and SGE21.**

4 economy

Our purpose-designed machinery and facilities allow us to offer very competitive prices, while our vast experience ensures projects are delivered fast and efficiently.

5 social responsibility

Our company is respectful of the environment and committed to caring for the social, occupational and environmental needs.

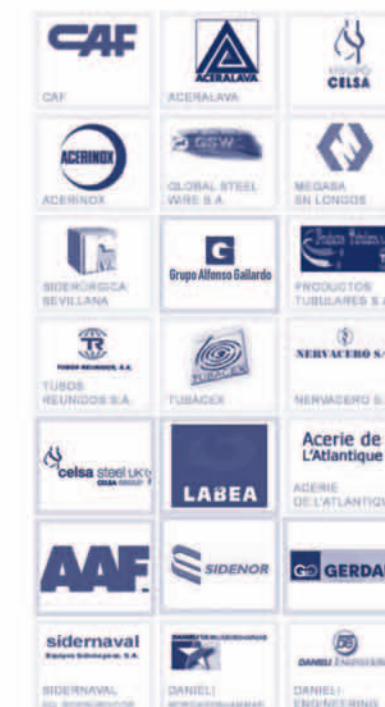

Our services are backed by several awards and certifications:

- Entry to the IV European Business Awards for the Environment 2007 - 2008, Basque Country Section, in the category Management Award for Sustainable Development.
- 1st Prize Winner of the II San Prudencio Good Practice Award for Corporate Social Responsibility (October 2007).
- Runner-up in the 2006 Occupational Risk Prevention Award, organised by Osalan.
- 1st Prize Winner of the VII San Prudencio Award for Safety and Hygiene in the Workplace (November 2005).
- 2 consecutive years winner of the Commitment to Excellence Award awarded by Euskalit.
- Environmental certifications.
- Social responsibility certifications.

6 closeness

Our team of professionals will conduct an on-site visit of your facilities to assess your needs and provide excellence and closeness of service.
